Canadian Valley Technology Center (CVTC) does not discriminate on the basis of race, color, national origin, sex/gender, age, disability or veteran status. Inquiries concerning application of this policy may be referred to the CVTC Compliance Officers at either the EL RENO/COWAN campuses: 6205 East Highway 66, El Reno, OK 73036, 405.262.2629; or the CHICKASHA campus, 1401 Michigan Avenue, Chickasha, OK 73018, 405.224-7220.

### Our Mission

We prepare people to succeed through quality career and technical education programs and services.

Since 1970, we have been providing high-tech educational opportunities for high school students, adults, small businesses and large corporations.

So whether you're ready to focus on your education, career, goals, life? Focus on CV Tech.

Our programs and services help you if you're going to college, if you're ready to enter the workforce, if you're an adult ready to make a career change or simply ready to expand your skills. Canadian Valley Tech is ready to help you get ready to focus on you.

CV Tech: Focusing on Education

Each year, hundreds of students choose to maximize their education by adding Canadian Valley's career-focused curriculum to their class schedules. Our students learn to apply math, science and other subjects into their study of various career fields. As a result, our graduates are prepared to keep up with today's high-tech, rapidly changing job market.

#### CV Tech: Focusing on Students

Canadian Valley Tech's student body is a diverse group of adults, high school students, business owners and senior citizens. A wide variety of students attend Canadian Valley's campuses each year for college preparedness, to upgrade their existing skills, change their career options or to attain the education needed for both personal and professional development.

#### CV Tech: Focusing on Instruction

Canadian Valley not only provides students with modern equipment and program offerings, but we also deliver our curriculum through innovative teaching methods. Canadian Valley incorporates a mixture of theory and practical application into its programs. Students are taught the fundamental concepts of their chosen field and then learn to apply them in professional lab environments. This approach not only helps our students to master highly technical procedures, it gives them a head start on developing the work ethic employers demand from employees.

Canadian Valley Tech is here to help you get ready to focus on... You.
