

INDUSTRY CERTIFICATIONS

Policy

Canadian Valley Technology Center recognizes the importance for students to obtain industry and trade-specific certifications and licenses. In an effort to maximize the number of students earning certifications and licenses, the District authorizes the expenditure of general funds to cover the direct costs of industry and trade-specific certification examinations and licenses related to the approved programs of study.

Procedure

The District will pay for industry or trade-specific certification examinations and licenses related to the student's approved program of study, not to exceed \$350.00 per student, per program. This benefit is for both high school and adult students through June 30, 2025. Beginning July 1, 2025, this benefit is for high school students and in-district adult students in a full-time program. The district will pay for the initial attempt only; retakes are not included.

A student must be currently enrolled in or recently completed an approved program and be in good standing at Canadian Valley Technology Center. The student must have the program instructor's recommendation to take the certification and/or licensure exam, which must be taken within 12 months of completing the program.

Only the industry and trade-specific certification examinations and licenses approved by the administration will be considered for this benefit.
