

STOP CAMPUS HAZING ACT REPORTS

In accordance with the Jeanne Clery Campus Safety Act, our institution publishes its Annual Security & Fire Safety Report (ASFR) by October 1st each year. Beginning with the October 1, 2026 report, the ASFR will include specific, aggregated data on hazing incidents. This data will encompass incidents reported to Campus Security Authorities (CSAs) or local police agencies that occurred within the institution's Clery geography.

The Stop Campus Hazing Act (SCHA) significantly enhances transparency and accountability regarding hazing incidents on postsecondary campuses receiving federal funding. This legislation mandates two distinct public reports, ensuring comprehensive disclosure of hazing-related information.

CAMPUS HAZING TRANSPARENCY REPORT

The SCHA also requires the publication of a new, dedicated Campus Hazing Transparency Report (CHTR). This report provides detailed, incident-specific information regarding hazing violations where a recognized/registered student organization (RSO) has been found responsible. The CHTR includes:

- The name of the RSO involved.
- A general description of the hazing violation, including whether alcohol or other drugs were involved.
- The institution's findings regarding the incident.
- Any sanctions imposed on the student organization as a result of the violation.
- Key dates associated with the incident, including the alleged incident date, the investigation initiation date, the date the investigation concluded with a finding of responsibility, and the date the organization was notified of the finding.

The first CHTR will be published by December 23, 2025, covering incidents from July 1, 2025, onward.
